General:

Dr. Bergersen taught at Northwestern University for 25 years on the growth and development of the head and cephalometric radiography, as an assistant professor. He has been a guest lecturer at the Universities of Nebraska, Illinois, Loyola University and Marquette University Orthodontic Departments. He developed the Ortho-Tain® Preformed Positioner in 1968, the Occlus-o-Guide® Eruption Guidance Appliance in 1975, and the Nite-Guide® Eruption Guidance Appliance in 1989. He holds more than seventy-five United States and foreign patents. Dr. Bergersen has lectured throughout Europe, the United States, Canada, Asia, Africa, and South America on these appliances. He has given numerous courses on growth and development research, as well as on the use of skeletal age assessments of maturity in relation to facial and body growth and its influence on orthodontic treatment and retention timing. He is a guest lecturer in the pediatric post-graduate department of the graduate school of dentistry at Tufts University in Boston, Massachusetts.
